**TIME PERIODS FOR FILING A REPLY TO THIS NOTICE:**

1. Applicant is given **no new time period** if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. 2. Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the **corrected section** of the non-compliant amendment in compliance with 37 CFR 1.121, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a Quayle action.

*Letter*

The substitute specification filed 13 June 2005 has not been entered because it does not conform to the requirements of 37 CFR 1.125(b) and (c). Specifically, applicants' substitute specification wasn't submitted with markings showing all the changes relative to the immediate prior version of the specification of record. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. An accompanying clean version (without markings) and a statement that the substitute specification contains no new matter must also be supplied. Numbering the paragraphs of the specification of record is not considered a change that must be shown.

A substitute specification must not contain new matter.

Although each sheet of the drawings must include the proper identifier as noted in section 3(A) of the Notice of Non-Compliant Amendment, the inclusion of the page numbers "20," "21," etc. is confusing inasmuch as they refer to pages of the overall disclosure and not just the drawings.

With respect to the claims, not only must identifiers be included as noted in section 4(C) of the Notice of Non-Compliant Amendment, but new text must be underlined as in the

Art Unit: 3643

substitute specification and deleted text must be shown by strike-through or double brackets, as appropriate. A clean copy of the claims, however, is not required.

The requirement for a new declaration has been withdrawn; the original declaration is acceptable.
